Report on Town History.

THE HISTORIAN WOULD SUBMIT THE FOLLOWING :

Circumstances have not been altogether favorable during the past year for accomplishing as great an amount of work as we had hoped; yet a fair showing has been made, especially in the genealogical department. We have devoted much time to the work, even to the detriment of our farming interests, and about thirty genealogies are nearly ready for the printer. Other work has been done, besides the collection of much more material.

Efforts have been made to apportion the work of some of the departments to different individuals, but with only partial success. There is however, a more favorable prospect in this respect in the year to come.

We would urge all our townspeople to a greater degree of interest in the work, and invite their hearty co-operation in it, for its magnitude and importance seems to demand it.

Library Trustees' Report.

THE LIBRARY TRUSTEES WOULD RESPECTFULLY SUBMIT THE
FOLLOWING REPORT:

We have added to the Library eighty-three volumes classified below. The Library has been presented with "The Crisis," by the author, Winston Churchill; numbers 558 and 559 were given by Charles Tuxbury; we have also received from Mrs. Mary Tyler, the unbound "Harper's" beginning in 1882 and ending 1900. These, excepting a few years which we already had, have been placed in the hands of a binder and we had hoped to have a part of them in the library ere this, intending to pay for a part of the work this year and the remainder next year, but have been disappointed. The "Century," "Cosmopolitan," and "Granite Monthly," for 1901, will also soon be ready.

Report of School Board.

WE RESPECTFULLY SUBMIT THE FOLLOWING REPORT FOR THE
SCHOOL YEAR, ENDING FEBRUARY 14, 1902:

We have maintained 28 terms of school, in 11 different houses, employing 17 female and 2 male teachers. By conveying the pupils from divisions 1 and 10 to other divisions, we have been enabled to place 30 weeks of school within the reach of nearly every pupil in the district. Whole number of scholars reported by officer—boys, 95; girls, 68; total, 163.

We have exchanged the New Normal series of readers for Cyr's Readers, also the smaller book of the Rand-McNally series of geographies for Fry's, of corresponding grade, because their worn-out condition rendered them unfit for further use.

While we acknowledge that we have made mistakes, and our work has not been faultless, yet our schools have, as a whole, been successful and some very excellent. It has been our aim to place equal privileges within the reach of every scholar, so far as possible. We would emphasize the importance of regular attendance. In some divisions the attendance would have been perfect except for sickness, in others it is quite the reverse, and the result is damaging to the pupil, and very discouraging to the teacher. To obtain the best results, teachers, pupils and parents must work unitedly. Parents are an important factor of our schools, and we would urge a greater effort, on their part, to visit the schools and become acquainted with the teacher. Invite the teacher to your homes, make a little extra preparation, bring out your best china, and show to your children that you consider their teacher an esteemed guest, thus teaching them to love and respect their teacher. Be very careful never to say aught detrimental to the teacher in the children's hearing, and if perchance, you happen to have a teacher of but ordinary ability, much good may result because of your help and encouragement.

The usual statistical table and roll of perfect attendance will be found appended.

Respectfully submitted,
ELLA I. RICHARDSON, } School Board
GEORGE L. DEMING, } of
JOSIAH DAVIS, } Cornish.
